

Curriculum News – Over Three's

Week beginning 1st May 2017

This week we have been.....

- Planting beans in bags so that we can see how they grow.
- We used large leaves from the garden to make marks on the ground.

Next week we will be

- Learning to take care of our environment by watering and caring for the herbs and vegetables that we are growing.
- Counting and matching numerals while exploring and counting seeds.
- Developing our drawing skills by looking at and drawing buildings in our local environment.

You can help your child by

- Looking at plants in your garden or in the park and talk to your child about how they grow.
- Plant some cress in a yoghurt pot with your child and see how it grows. Cress can grow very easily on damp cotton wool.
- Sing our rhyme of the week together.

Follow the link below to watch our rhyme of the week together with your child.

‘When Goldilocks went to the house of the Bears’.
