

Although I play with lots of things.....

These pieces of wood are new.
I have a lot of friends with whom I play but sometimes I like to be on my own.

I've made a tower house by putting the blocks on top of each other.

What is S learning?

- Developing hand eye coordination
- Exploring new resources and learning about shapes and size

Next Steps:

- To encourage S to construct with the recycled materials
- For S to participate in the activities the artists do

I like building things.

I'm working with my friend. What did you say they were called again? K k ka kap come on tell me...
kapla! that's right, I remembered it.
