

Frozen

H's Listening story

26.10.15 to 29.10.15

This week H came into nursery singing the 'Frozen' song 'Let it go.' So, we played it on the computer for her. H was so happy! Smiling and singing away.

The next day, we put the animated song on the interactive board in the piazza, where H got up and sang most of the song, in front of 15 children.

This truly was a 'Wow Factor!' to see H's new found interest. What was remarkable was that she knew the words and actions to the song and was confident to sing it in front of the other children.

Next step: to see if H is able to learn any other songs?
